EDUCATION

University of Central Florida

Bachelor of Digital Media: Web and Social Platform

Orlando, FL

May. 2027

Valencia College

Associate in Arts

Orlando, FL

Dec. 2024

EXPERIENCE

Web Design Developer

HTDS

June 2026 - Present

Barcelona, Spain

- Maintained the application and considered desktop versus mobile layout, creating a smooth transition between mediums
- Collaborated with team members in four different projects to split tasks and communicate important changes
- Considered usability and user interactions to ensure the site remains clear

Digital Shopper

Walmart

September 2022 - Present

Winter Garden, FL

- Efficiently pick, prepare, and process customer orders with attention to detail to ensure timely and accurate deliveries
- Collaborated with team members to coordinate order preparation and assist drivers in providing a smooth and efficient pickup or delivery experience
- Provided friendly and proficient assistance, ensuring a positive shopping experience by addressing customer needs

PROJECTS

Ray Express | *Figma*

January 2026 – April 2026

- Collaborated with a team to design a public-transit-centered application, with the focus on providing up-to-date information for new bus users
- Feedback from three Task Analyses and three rounds of surveys was taken into high consideration, and multiple iterations were considered to determine proper User Experience
- Addressed the need for planning and addressed concerns before delving into the research to apply them early on in the design process

Portfolio | *React, HTML, CSS*

July 2025 – Present

- Developed a Front-End Site to display my current skills, using the site as an extension of my abilities
- Experimented with new techniques and organization to create an interesting website
- Quick to update when new information or projects arise to showcase my current abilities

Exercise App | *React App, CSS*

March 2026

- Developed an Exercise Application with different methods of recording certain exercises
- Implemented user-involved adjustments to personalize their needs
- Modified tracking modules better adapt to particular exercises

Quill & Ink Bookstore Site | *HTML, CSS, JavaScript*

August 2025 - December 2025

- Collaborated with a team and assisted in developing a project timeline to ensure deadlines were met
- Responsive to fixing bugs and errors that occurred during development
- Consistently logged our progress through the initiation phase to the closing phase

TECHNICAL SKILLS

Languages: JavaScript, HTML/CSS, PHP, MySQL

Frameworks: React

Developer Tools: Git VS Code, Visual Studio, Figma
